

UniFAX

UniFAX is a fax solution for efficient, paperless and secure transmission of faxes. With UniFAX you can entirely eliminate the delays and inefficiencies of paper-based fax processes.

Features

- Send and receive faxes through your Email Client
- Send faxes directly from within applications such as Microsoft Word, Excel and more
- Conveniently share, manage, and store faxes with access to document management systems
- Receive incoming faxes as PDF attachments in your email inbox
- Preserve confidentiality of content-sensitive documents

What's Included?

- Send and receive **unlimited faxes**
- 1 DID (local fax number) per user

How does it work?

- Go to email client
- Send to: Fax#@unifax.email
