

YOUR CUSTOMERS WILL LOVE DIRECT ROUTE FOR MICROSOFT TEAMS AND YOU'LL BENEFIT WHEN THEY DO!

Companies everywhere are using Microsoft Teams as a premier internal collaboration tool. Incorporating voice communications for external calling into Microsoft Teams is the last piece of the collaboration puzzle that turns Teams into an indispensable tool. Direct Route for Microsoft Teams is the voice implementation approach that makes Teams the best it can be.

VOICE AS A FEATURE™

AUTOMATE MICROSOFT TEAMS DIRECT ROUTING SERVICE IN MINUTES.

Not all voice solutions for Microsoft Teams are created equal, but you can take your UCaaS offering to the next level with UniVoIP's calling plans delivered from our cloud-native network platform. Enterprises can independently provision Direct Routing service allowing users to begin making, receiving and transferring calls to and from landlines in minutes.

- ✓ Native teams calling across all devices
- ✓ Dedicated, purpose built platform
- ✓ No premise-based appliances, local trunks, or third-party plugins and their associated points of failure
- ✓ Automated Onboarding Workflow and lifecycle management from Service Control
- ✓ Geographically redundant, resilient, and scalable
- ✓ Unmatched security
- ✓ Overlay features including fax, analog, and paging
- ✓ Maximizes your customers' Teams investment
